Project Engineer

Hiring organization
Manba Beirut for Trading and Contracting

Employment Type
Full-time

Job Location
Saudi Arabia

Description
We’re seeking a proactive Mechanical Project Engineer with 2 years of experience in managing steel fabrication projects to join our dynamic team.

Responsibilities

- Interpret and review fabrication drawings, and supervise workshop and site activities.
- Strong communication, documentation, and team management skills.
- Plan, execute, and deliver projects on schedule and within budget.
- Identify project risks, develop contingency plans, and ensure compliance with industry regulations.
- Ensure project timelines, quality standards, and safety protocols are met.
- Liaise with clients, suppliers, and management to deliver timely project updates and address concerns.

Eligibility

- Degree in Mechanical / Civil Engineering (B.E./B. Tech) or equivalent.
- 2 years of experience in managing steel fabrication, erection, and site coordination.
